

Preschool Developmental Screenings

Niles Township schools conduct Pre-school Developmental Screenings on the following dates to identify students who may qualify for special education services. The preschool screening assesses developmental skills in the areas of speech and language skills, fine and gross motor skills and pre-academic skills in addition to screening vision and hearing skills. A screening appointment must be scheduled so that staff can complete a thorough developmental screening. Staff reviews the outcome of the screening and discusses preliminary findings on the day of the screening with parents. In addition, a letter is sent to each family stating the outcome of your child's performance and any need for follow up appointments. The location, date, contact person and phone number for each Preschool Screening scheduled this school year are:

68 Highland	January 25, 2010	Ellen Ziarko	847-677-4560
74 Todd Hall	February 8, 2010 February 9, 2010-AM	Jacki Duff	847-745-3829
