

Preschool Developmental Screenings

Niles Township schools will conduct Preschool Developmental Screenings on the following dates to identify students who may qualify for special education services. The preschool screening assesses developmental skills in the areas of speech and language, fine and gross motor skills, and pre-academic skills in addition to screening vision and hearing. A screening appointment must be scheduled so that staff can complete a thorough developmental screening. Staff will review the outcome of the screening and will discuss preliminary findings with parents on the day of the screening. In addition, a letter will be sent to each family stating the outcome of the child's performance and any need for follow-up appointments. The location, date, contact person, and phone number for each Preschool Screening are listed below:
